

# ACSA MENTORING

## MENTOR APPLICATION /ACSA REGION 6 PROGRAM OVERVIEW:

Imagine being able to enter the job of principal or another new administrative position with confidential support from an experienced, supportive mentor to help get you started. -And, imagine that you could be the mentor providing that vital support to a protégé.

The ACSA Region 6, in collaboration with state ACSA, offers a skilled listening, caring, and responsive team that provides a unique and informal professional support service which is based upon trust and bound by ethics and confidentiality. The strengths of the mentor are matched with the protégé to address his or her unique individual needs. The service is non-judgmental and non-evaluative, with topics determined by the protégé.

Finally, Region 6 ACSA Mentoring is a welcoming introduction to ACSA, its services, and to informal local and regional networking opportunities.

## SCOPE OF ACSA MENTORING:

ACSA Mentoring is designed to help protégés understand their current roles as educational leaders and how they can positively and productively serve site, district, and community—students, staff, and parents. The mentor can assist the protégé with addressing leadership responsibilities and the management of time and how to have a balanced, healthy life. The strengths of the mentor, a skilled listener and practitioner with a focus upon helping the protégé better understand their individual and unique challenges, supports the protégé's individual leadership journey.

Generally, mentors and protégés work together between one and three hours each month at times and places determined by each pairing. While face-to-face mentoring will surely be most valued, telephone or email or other social media contacts can augment personal meetings.

## A NOTE ABOUT ACSA MENTORING VS. COACHING:

### Mentoring

- Informal Process
- Navigate Challenges and Opportunities
- Developing Effective Communication Skills
- Fostering and Refining Leadership Potential

### Coaching

- Formal Process
- Complete Credential Requirements
- Supervision and Evaluation
- Data Examination of Student Learning
