LCFF / LCAP UPDATE

SUPERINTENDENCY COUNCIL MEETING
THURSDAY, SEPTEMBER 25, 2014

Chris Adams –Director, ED Services
Kimberly Rodriguez – Advocate, Govt. Relations

SBE Action

- SBE is close to adopting permanent spending regulations and a revised LCAP template.
- Latest revisions out for 15 day public comment (Sept. 22).
- January 2014 emergency regulations are current law until permanent regs are adopted.
- Expected to adopt permanent regs at the Nov. 2014 Mtg.

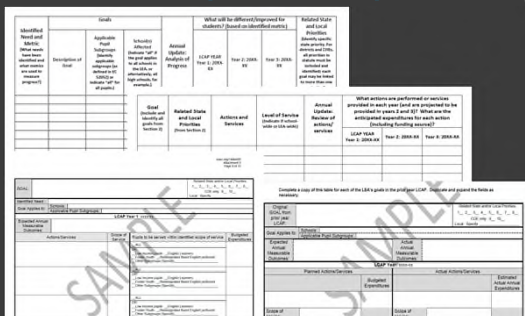

LCFF Spending Regs

- Changes to spending regulations from January
 - “Principally and most effective language”
 - Requires LEAs, when using supplemental/concentration grant funds districtwide or schoolwide, to demonstrate \$ is being used to “*principally directed towards and effective in* meeting the district’s goals for unduplicated pupils...”
 - No definition of “principally.” Concerns about focusing on inputs rather than outcomes for students. Categorical like.
 - Definition of “consult with pupils”
 - Pupils required to have opportunity to review and comment on LCAP, including surveys, forums, etc.

LCAP Template

- Changes to LCAP Template, including annual update
 - ACSA joined with small coalition of ED management groups to submit joint comments on template. (CSBA, CASBO, CA Assoc. of Suburban Schl Districts, Small Schl District Assoc, LAUSD, SDUSD, & Riverside COE)
 - More “user friendly”
 - Focus on expenditures being tied to the actions/services provided NOT to detailed by pupil subgroup.
 - LCAP is not meant to be a complete expenditure document. “It can’t be everything to everyone.”
 - Focus on student outcomes not inputs.
 - A large portion of comments were reflected in revised template.
