ACSA Committees and Councils

Virtual Networking Events Now Open to All ACSA Members and Non-Members

Many of us went into teaching because we want to make a difference for students. Many of us then moved into administration because we want to make a bigger difference for students and believe that we can influence educational policies and practices. Belonging to ACSA demonstrates our commitment to our profession as educational leaders. If you want to be more informed about how ACSA is in the front line representing superintendents, district office administrators, site administrators, classified managers, etc., check out the work of ACSA committees and councils.

About Committees and Councils:

ACSA's effectiveness in shaping education policy at both the state and federal level lies in its grassroots strength. To that end, ACSA is structured with issue-focused committees and job-alike councils made up of education leaders.

ACSA members have the honor to serve on Committees and Councils based upon job-alike functions or sharing a common interest or goal. Occasionally, some of ACSA's Committees and Councils offer an open session, Virtual Networking Event, where administrators are able to join others similar in their job position or interest to network and learn. These meetings are open to ACSA members as well as non-members.

Meeting dates and times are listed on the [ACSA website](#) and all will be held virtually. You must register using the Zoom link listed below each meeting date and time.
