

COUNCIL OF ADULT EDUCATION LEADERS

By Jessica Dorris – Region Representative

The Council of Adult Education met at the end of September and again in November. Meetings focused on several key areas, including the discussion and approval of structural changes to the leadership, officer nominations, and the review of council bylaws and goals. Important legislative updates highlighted new laws affecting education, such as changes to independent study and funding programs. Council discussions included current challenges in adult education related to funding, enrollment, staffing, credentialing, and adult literacy needs. A process was developed to gather feedback to contribute to the One Voice Legislative Platform. The next meeting is scheduled for February 26, 2025.
