	<p>3. Lots of products like this iXL, iReady. Can you talk about how you develop performance tasks, problem solving rather than just the DOK1 procedural practice?</p> <p>Answer: Let's put the right types of problems in front of our students. Also, pedagogy, how are we teaching the math so we are getting to the deeper levels? Conceptually represent their math, procedurally represent their math, based on that thinking, write about their math. Part of professional development is an option to do blueprint training</p>
